Home Description: We live in a close-knit neighborhood on a slow street so kids feel safe play on the sidewalks while neighbors chat or barbecue after a long day. Our lot is almost an acre and we plan to add a swing-set and large garden to our fenced large backyard is quite large.

Pets: Casper (age 7) and Copper (age 2) are long haired Dachshunds. They love to snuggle, play with kids, play fetch and also eat anything and everything that drops from the dinner table!

What we look forward to as parents: We look forward to traveling and enjoying life's experiences with a child. We love being able to invest and help a child learn new things and seeing their eyes light up with happiness.

Our thoughts on adoption: We love children and have always been involved with them from the earliest part of our marriage. Through infertility, our hearts opened to the possibility of growing our family through adoption. We respect whatever level of openness and communication you are comfortable with.
