Favorite foods: Hamburger
Fun Fact: Spent 4 years living in England.

Name: Tana
Occupation: Accounting
Favorite Activities: Exploring
Favorite foods: Sushi
Fun Fact: As a child I wanted to be an Alligator wrestler.

Religion: Christian

Home Description: We live on a quiet street with a school bus pickup at the corner of the block. It's a newer home that has a large back yard with a large vinyl privacy fence. It's a very open space for children to play in. We have theater room in the basement that is a very warm space for a child to play in while spending quality time with family.

Pets: We currently have two dogs and two cats. Our dogs' names are Cordelia and Delilah. Our cats' names are Obie and Poopie, both are rescue cats. The dogs love children and follow them around the house wanting to play or pick up lost snacks. They are very gentle and playful with children. Our dogs are 4 months apart in age and spend a lot of their time playing outside. The cats are always looking for an open lap to cuddle in or a partner for a nap.

What we most look forward to as parents: As parents, we hope to instill confidence, courage, and determination to dream big. We offer love and support no matter what and to show them how to be kind and accepting of others.

Our thoughts on adoption: We have always planned on adoption being a part of our journey to grow our family. This child would be our first and the first grandchild as well.
